Device helping patients hold breath during radiotherapy

Digital solution to support pain management pathways

Medway Innovation Hub

- Founded Mar '19, to tackle wicked problems, focus on place; Medway and Swale
- Innovation ecosystem driven by understanding system problems and enabling solutions at scale
- Entrepreneurs invited to present solutions to stakeholders on a theme; eg workforce safety, social isolation or remote monitoring
- Strengthened pan-Medway system relationships and conversations with innovation
- Horizon scanning and opportunities for new products / services with successful adoption
- Subsequently formed the Innovation Collaborative alongside KSS AHSN & Design & Learning Centre
